

Three sites to choose from. Built to get you booked.

Every page uses your real prices, your own photos and your reviews from The Knot and WeddingWire. Behind the site sits the system that turns a visitor into a booked table.

THE REVENUE ENGINE

FOUR STAGES · EACH ONE A LINE ITEM

1

Found

Your Google Maps listing, search, Instagram, Facebook and Pinterest. Tomball, The Woodlands, Spring, Conroe.

2

Chosen

A site that looks like your food, says what you charge and shows your 5.0.

3

Booked

Every quote request on your phone in seconds, logged so none goes unanswered.

4

Booked again

A thank-you, a one-tap review ask and a note to the same host at day 30.

HOW THIS WORKS

THREE DECISIONS, IN ORDER

1

Pick a site

Page 2. Three to choose from, and The Table as its own package.

2

Say yes to what you want

Page 4. The website alone, or the Revenue Engine with it.

3

Live in seven days

Then ninety days of care, included. The Table takes three weeks.

Pick the one that feels like you. Then we make it yours.

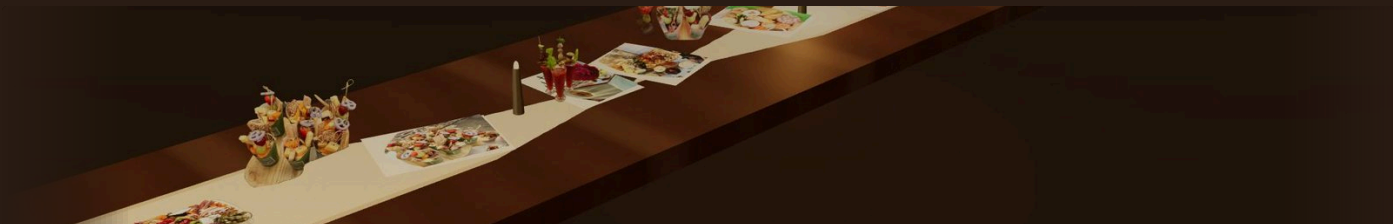

All three are built and live at the links below. Pick one and it becomes your site: your colors, your photos, your words, the pages you want. Your real prices, your reviews and a quote to your phone in one tap come with every one. The price stays \$600.

Any of the three can change. Swap the palette, move a section, add a page, drop one. Two rounds of changes before launch are included, and the first ninety days after.

The number

One candlelit room instead of pages. You never leave it.

Your boards, your cart and your photographs are on the table.

On a phone it becomes one picture of the room, with the same words.

A new kind of site: more like walking through a room than reading pages, and different from the traditional look and feel of the three above. It follows the patterns of 48 immersive studio sites we studied for this project, Lusion, Unseen, Locomotive and North Kingdom among them, the kind that win the web's design awards.

Six texts follow one booking. You tap send.

What a workflow is

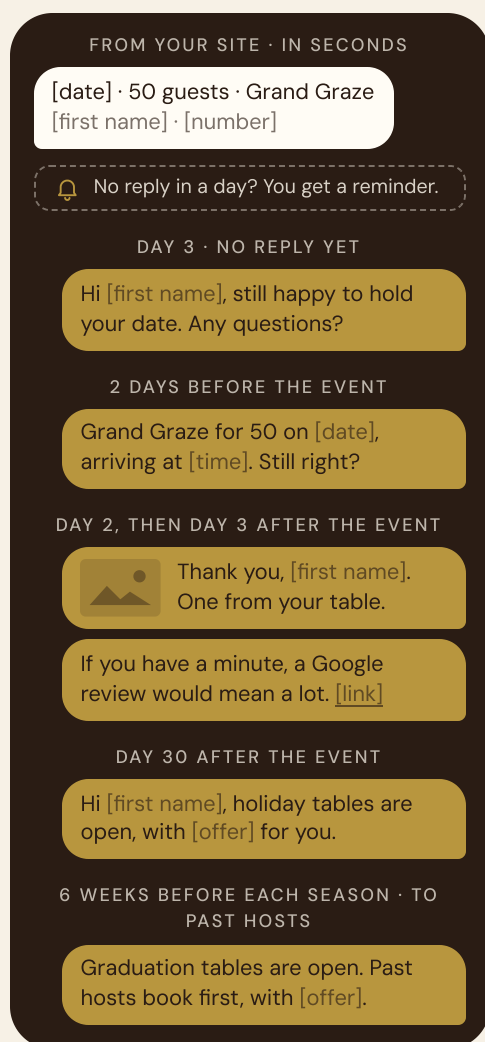

A message that is ready the moment something happens: a quote lands, an event ends, a season nears. We write each one with you, in your voice, and put it on your phone. On the day, your phone reminds you. You read it and tap send. Nothing goes out on its own, and nothing sounds like a robot.

One saved quote pays for it twice.

A grazing table starts at \$1,200. The package is under half of one 50-guest table.

\$500 What it buys

- ✓ Six routines on your phone, the ones drawn below.
- ✓ Every message written with you, in your voice.
- ✓ A reminder on the day, so nothing slips.
- ✓ The log. Every quote request, and whether it was answered.
- ✓ One screen a month. Calls, quotes, bookings, best photo.
- ✓ Yours for good. No monthly fee, no software to learn, no chatbot.

1

Never miss a quote

A grazing table starts at \$1,200. The host who does not hear back books someone else.

2

The quiet quote

Silence is not a no. Three days on, a short nudge is ready to send.

3

Confirmed and counted

The headcount is the price. Date, table, count and arrival time in writing before the day.

4

Turn every event into a review

Reviews are the cheapest source of new bookings. 24 five-star reviews on The Knot and WeddingWire. This builds the same proof on Google.

5

Bring the host back

A host who has seen your table needs no convincing. One note, a month later, with an offer you set.

6

The season ahead

The calendar fills in the order people are asked. Holidays, graduations, weddings: past hosts hear first.

Three ways to say yes.

Ninety days on us. Then, if you want, we keep going.

One line, from the day you say yes: what we need from you, what is included, and what a plan adds.

DAY 0	DAYS 1 TO 7	DAYS 1 TO 90	FROM DAY 91
Ninety days on us. Care and Growth begin after that, and only if you want them.			
Before we start THE DAY YOU SAY YES ☐ This proposal approved, design picked ☐ Your logo files, any size ☐ Camera-roll originals of your photos ☐ A yes or no on these details Street address on the site · the Spanish line · the About photo · how the cart, sweets and sips are charged · dietary notes	While we build DAYS 1 TO 7 ☐ The login for charcuteriechick.ai, your web address, or a short call and we do it together ☐ The login to your current site ☐ Your Google Business Profile, the listing people see on Google Maps, or we claim it together	Included with any site DAYS 1 TO 90 ✓ Two rounds of changes before launch ✓ Monitoring and small changes after it ✓ A quick yes on the message templates ✓ Fixes to your WeddingWire listing, where the name and a price are wrong today, done with you	If you want more FROM DAY 91 A plan, billed monthly in advance. Cancel any time with thirty days' notice. Two to choose from, below.

What a month on Growth looks like

We check every page, form and link, post twice to your Google Business Profile from your event photos, keep the review routine running, and send you one screen: calls, quotes, bookings and the best photo. Three hours of changes are yours to spend on prices, photos or a seasonal note.

Care \$69 a month ✓ Hosting and your web address, kept running and watched ✓ Monthly check of every page, form and link ✓ Security updates and a backup copy of the site ✓ One hour of changes a month ✓ Every three months, a check on how you show up in Google	Growth \$149 a month EVERYTHING IN CARE, PLUS ✓ Three hours of changes a month ✓ A monthly report: how you show up in Google, and who asked for a quote ✓ Two Google Business Profile posts a month, from your event photos ✓ The review workflow kept running
---	---

The first ninety days come with any website. After that, you decide.

Half to start. Half when it is live.

Above the line, what goes live. Below it, what you pay.

The one-page site is the exception: \$150 on delivery, live in 2 days. If you do not like it, you do not pay.

OWNERSHIP

Your web address, logo, photos and words stay yours. The site files are yours at launch. Nothing on your current site changes until you say go.

REVISIONS

Two rounds before launch on the full or immersive site, one on the one-page site. Then the included 90 days, then the care plan.

NOT INCLUDED

Ad spend, a paid photographer, printed menus beyond the marketing kit, online payments, a booking calendar, automated replies. The last three on purpose: your customers hear from you.

PRICES

US dollars. Texas sales tax is added where it applies. Every invoice references this proposal.
