

Three sites to choose from. Built to get you booked.

Every page uses your real prices, your own photos and your reviews from The Knot and WeddingWire. Behind the site sits the system that turns a visitor into a booked table.

THE REVENUE ENGINE

FOUR STAGES · EACH ONE A LINE ITEM

1

Found

Google Business Profile, search, Instagram, Facebook and Pinterest. Tomball, The Woodlands, Spring, Conroe.

2

Chosen

A site that looks like your food, says what you charge and shows your 5.0.

3

Booked

Every quote request on your phone in seconds, logged so none goes unanswered.

4

Booked again

A thank-you, a one-tap review ask and a note to the same host at day 30.

HOW THIS WORKS

THREE DECISIONS, IN ORDER

1

Pick a site

Page 2. Three to choose from, and The Table as its own package.

2

Say yes to what you want

Page 4. The website alone, or the Revenue Engine with it.

3

Live in seven days

Then ninety days of care, included. The Table takes three weeks.

Pick the one that feels like you.

01 Garden Atelier

Elegant and editorial. A warm boutique on a quiet street.

\$600 The full website
charcuterie-chick-sample-1.vercel.app

02 Midnight Supper

Evening and cinematic. The cart is the star.

\$600 The full website

03 The Gathering

Bright and friendly. Prices up front.

\$600 The full website

EVERY SITE INCLUDES

Five pages • Your real prices • Your photos • Your reviews • A quote to your phone in one tap • Built to be found

The Table

Arrive

One candlelit room instead of pages. You never leave it.

The tables

Your boards, your cart and your photographs are on the table.

The cart

Tricia

On a phone it becomes a rendered still with the same words.

The number

A new kind of site, different from the traditional look and feel of the three above. It follows the patterns of 48 immersive studio sites we studied for this project, Lusion, Unseen, Locomotive and North Kingdom among them, the kind that win the web's design awards.

Six texts follow one booking. You tap send.

Each routine has the text ready, in your voice, and reminds you on the day. Nothing goes out without you.

1

Never miss a quote

A grazing table starts at \$1,200. The host who does not hear back books someone else.

2

The quiet quote

Silence is not a no. Three days on, a short nudge is ready to send.

3

Confirmed and counted

The headcount is the price. Date, table, count and arrival time in writing before the day.

4

Turn every event into a review

Reviews are the cheapest source of new bookings. 24 five-star reviews on The Knot and WeddingWire. This builds the same proof on Google.

5

Bring the host back

A host who has seen your table needs no convincing. One note, a month later, with an offer you set.

6

The season ahead

The calendar fills in the order people are asked. Holidays, graduations, weddings: past hosts hear first.

\$500

SET UP ONCE · YOURS FOR GOOD

Under half of one 50-guest table. Live within a week of the site.

You tap send.

No chatbot, no auto-reply, no paid texting service.

The log.

Every quote: date, headcount, table, answered or not.

One screen a month.

Calls, quotes, bookings and the best photo.

Three ways to say yes.

Half to start. Half when it is live.

Above the line, what goes live. Below it, what you pay.

The one-page site is the exception: \$150 on delivery, live in 2 days. If you do not like it, you do not pay.

OWNERSHIP

Your domain, logo, photos and words stay yours. The site files are yours at launch. Nothing on your current site changes until you say go.

REVISIONS

Two rounds before launch on the full or immersive site, one on the one-page site. Then the included 90 days, then the care plan.

NOT INCLUDED

Ad spend, a paid photographer, printed menus beyond the marketing kit, online payments, a booking calendar, automated replies. The last three on purpose: your customers hear from you.

PRICES

US dollars, valid through October 1, 2026. Texas sales tax is added where it applies. Every invoice references this proposal.
