

Three sites to choose from. Built to get you booked.

Every page uses your real prices, your own photos and your reviews from The Knot and WeddingWire. Behind the site sits the system that turns a visitor into a booked table.

The number

One candlelit room instead of pages. You never leave it.

Your boards, your cart and your photographs are on the table.

On a phone it becomes a rendered still with the same words.

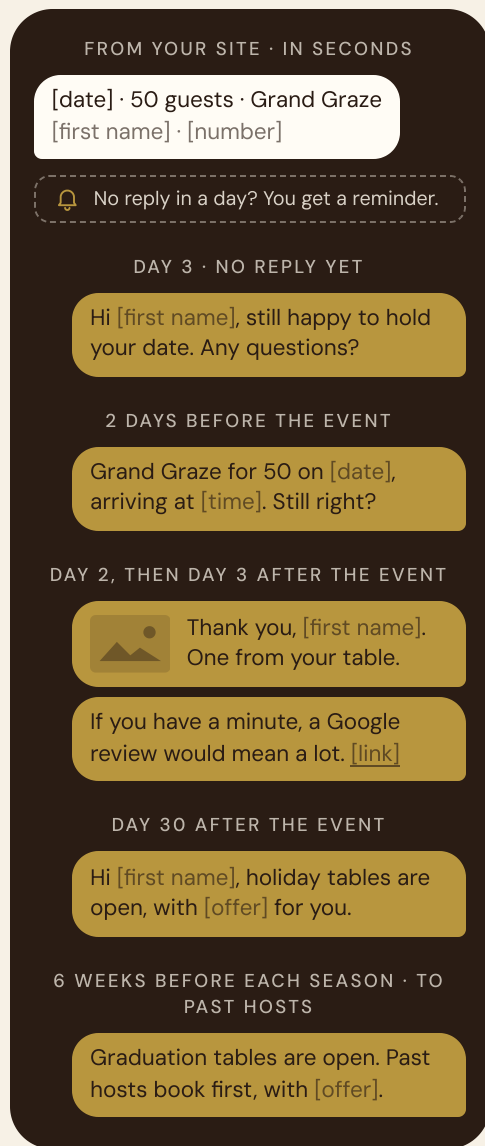

A new kind of site, different from the traditional look and feel of the three above. It follows the patterns of 48 immersive studio sites we studied for this project, Lusion, Unseen, Locomotive and North Kingdom among them, the kind that win the web's design awards.

PAGE 2 OF 6

Six texts follow one booking. You tap send.

Each routine has the text ready, in your voice, and reminds you on the day. Nothing goes out without you.

1

Never miss a quote

A grazing table starts at \$1,200. The host who does not hear back books someone else.

2

The quiet quote

Silence is not a no. Three days on, a short nudge is ready to send.

3

Confirmed and counted

The headcount is the price. Date, table, count and arrival time in writing before the day.

4

Turn every event into a review

Reviews are the cheapest source of new bookings. 24 five-star reviews on The Knot and WeddingWire. This builds the same proof on Google.

5

Bring the host back

A host who has seen your table needs no convincing. One note, a month later, with an offer you set.

6

The season ahead

The calendar fills in the order people are asked. Holidays, graduations, weddings: past hosts hear first.

\$500

SET UP ONCE · YOURS FOR GOOD

Under half of one 50-guest table. Live within a week of the site.

You tap send.

No chatbot, no auto-reply, no paid texting service.

The log.

Every quote: date, headcount, table, answered or not.

One screen a month.

Calls, quotes, bookings and the best photo.

Three ways to say yes.

WHAT WE NEED FROM YOU, AND WHEN			THREE SHORT LISTS		
Before we start			Before launch		
THE DAY YOU SAY YES			WHILE WE BUILD		
☐ This proposal approved, design picked ☐ Your logo files, any size ☐ Camera-roll originals of your photos ☐ A yes or no on these details Street address on the site · the Spanish line · the About photo · how the cart, sweets and sips are charged · dietary notes			☐ Domain settings for charcuteriechick.ai, or we set them together on a short call ☐ Admin access to your current site ☐ Access to your Google Business Profile, or we claim it together		
After launch			ONCE		
			☐ A quick yes on the message templates ☐ Fixes to your WeddingWire listing, done with you ☐ On Growth, a few phone photos each month From an event that month, for the Google posts		

Half to start. Half when it is live.

Above the line, what goes live. Below it, what you pay.

The one-page site is the exception: \$150 on delivery, live in 2 days. If you do not like it, you do not pay.

OWNERSHIP

Your domain, logo, photos and words stay yours. The site files are yours at launch. Nothing on your current site changes until you say go.

REVISIONS

Two rounds before launch on the full or immersive site, one on the one-page site. Then the included 90 days, then the care plan.

NOT INCLUDED

Ad spend, a paid photographer, printed menus beyond the marketing kit, online payments, a booking calendar, automated replies. The last three on purpose: your customers hear from you.

PRICES

US dollars, valid through October 1, 2026. Texas sales tax is added where it applies. Every invoice references this proposal.
